

# Subject index of 1963 articles

*The titles are of feature articles, plus items in  
Power Transmission at Work and Bearing Briefs.*

## Bearings, lubrication, and seals

Issue	Page
Fork lift truck uses tapered roller bearings .....	Jan 19
Combination drive and pinion stand for two mills has tapered roller bearings .....	Feb 12
Frictionless magnetic bearing .....	Feb 43
Bearings of Teflon and glass need no lubrication .....	Feb 44
Plain bearing outlasts roller 4 to 1 at 10 F .....	Feb 46
New bearing prevents damage to seals in rolling mills .....	Mar 15
Small drives, bearings .....	Mar 34
Small gears drive eyes and ears of Mariner II .....	Mar 40
Small bearings help solve trig problems .....	Mar 51
Chart predicts life of bearings .....	Mar 54
Cages in roller bearings are aluminum .....	Apr 10
Self-lube chain opens new uses for chain drives .....	Apr 41
Tapered bearings simplify pump .....	Apr 47
Bearings last longer, forged a new way .....	Apr 50
Roller bearings .....	May 38
One-shot lubrication .....	May 38
Spherical rod-end bearings .....	May 40
Ball bearings .....	May 40
Bronze sleeve bearings .....	May 40
How bearings were selected for a 5-ton hoist .....	May 45
Cinerama projectors have plastic bearings .....	May 46
Small ball bearings make gyroscope work .....	May 49
Snapsprings simplify bearing assembly .....	Jun 8
Suggestion plan saves bearings .....	Jun 32
Aerospace bearings—industry rewrites the book .....	Jun 47
Bearing kept cool by thermoelectric cooling .....	Jun 56
Blooming mill has oil-film bearings .....	Jun 56
Cold saw uses tapered bearings .....	Jun 57
Angular-contact bearings for high speed .....	Jun 57
New self-lube materials make special bearings .....	Jun 59
Generator control licks breakaway problem .....	Jul 10
Fluid-to-fluid "induction" .....	Jul 19
Run them dry in outer space .....	Jul 20
Gravity cutoff protects drive .....	Jul 22
More on running them dry in space .....	Aug 8
Nonmetallic bushings foil oxide abrasives .....	Aug 10
Inside-out gyro has rotor wrapped around mounts .....	Aug 11
How do you program maintenance for drives? .....	Aug 17
X-bearings support compound loads .....	Aug 37
LOX for Nova flows through 5-ton valve .....	Aug 40
Mechanical mule .....	Aug 40
Roller thrust bearing supports sub prop shaft .....	Aug 41
Run cermets on MoS <sub>2</sub> , says Commerce Dept. ....	Aug 41
Generators .....	Aug 41
How to find the forces on bearings for lifting loads .....	Sep 55
Pivoted pad adjusts gas bearing for thermal changes .....	Sep 58

Issue	Page
Major carrier installing tapered roller bearings .....	Sep 59
Top-mounted mixer seal takes just three steps to change .....	Oct 14
Mixer drives challenge the designer .....	Oct 29
They don't find missile pump bearings in a catalog .....	Oct 47
Bearings for cryogenic pumps .....	Oct 48
New material cuts bearing costs .....	Oct 49
Two bearings do the work of three .....	Oct 49
Trunnion has three roller bearings .....	Oct 50
Wires increase versatility and life of custom-made bearings .....	Oct 50
Why nickel in bearing steel? .....	Oct 51
Bearing aids bearing .....	Oct 51
Split bearing has extra-deep groove .....	Oct 52
Skip hoist uses 7" pillow blocks .....	Oct 53
Bearing heat in high-speed spindles .....	Nov 49
Bearing fits are simpler with sealants .....	Nov 52
Pivoted shoes center automatically .....	Nov 54
Bearing for radar antenna has integral gears .....	Nov 54
1,000,000 bearings! .....	Nov 55
Study predicts film within 0.000001 in. .....	Nov 55
How to inspect bearings before assembly .....	Dec 47
Sleeve bearings for motors .....	Dec 50
Bearings for a 45-ton load .....	Dec 52
Ultra-precision gyro turns on hydrostatic bearing .....	Dec 52
Four-ton bearing shipped to west coast .....	Dec 53
Ball-and-socket universal joint .....	Dec 53

## Belt drives

Ribbed belt gives years of duty .....	Jan 14
Narrow V-belts save money .....	Feb 11
New textile drive for high-speed carding machine .....	Feb 12
Ribbed belt replaces double drive .....	Feb 12
Roll-contact spinner .....	Feb 13
Belt tension—controlled with a motor base .....	Feb 30
Toothed belt can be forgotten .....	Mar 13
Toothed belts drive crane .....	Mar 19
Small drives, belts .....	Mar 34
Belt silences gear drive for meter .....	Mar 42
Toothed belt controls cellophane tension .....	Apr 8
Notched V-belts help pump gasoline .....	Apr 8
Narrow V-belts improve log barker .....	Apr 11
Narrow V-belts drive vacuum pumps .....	Apr 38
Narrow V-belts drive paving machine .....	May 8
Silding base .....	May 32
Belt does unusual job .....	May 36
Multi-rib belt steps up speed for alternator .....	Jun 10
Belts replace gears to improve housekeeping .....	Jun 12
Belt stops damage to motor .....	Jun 32
Belt drive absorbs kickback on pole peeler .....	Jul 10

Notched V-belts help pump gasoline .....	Apr 8
Narrow V-belts improve log barker .....	Apr 11
Narrow V-belts drive vacuum pumps .....	Apr 38
Narrow V-belts drive paving machine .....	May 8
Silding base .....	May 32
Belt does unusual job .....	May 36
Multi-rib belt steps up speed for alternator .....	Jun 10
Belts replace gears to improve housekeeping .....	Jun 12
Belt stops damage to motor .....	Jun 32
Belt drive absorbs kickback on pole peeler .....	Jul 10

Issue	Page	Issue	Page
Mechanical drive beats hydraulic .....	Jul 14	Giant earthmovers from basic modules grow .....	Sep 8
Toothed belt delivers .....	Aug 13	Fluid coupling cushions starting load on	
How do you program maintenance for drives? ... Aug	17	robot ore car .....	Sep 10
Machine drives used in binding books .....	Aug 20	Limited-torque clutches protect forage	
Ribbed belt drives snowplow auger .....	Oct 12	harvester from shock loads .....	Sep 18
Toothed-belt drives .....	Nov 15	Two-way clutch operates fingertip shift of a	
Stroboscope tells belt tension .....	Nov 45	scraper .....	Sep 36
Drives that make hats .....	Dec 6	Four-speed drive runs 57-ton locomotive .....	Sep 45
Glass cord quadruples life of V-belts .....	Dec 11	Electric clutches integrate roller chain drives .....	Sep 48
Drives that keep them working down		Crawler tractor has simple power train .....	Sep 50
on the farm .....	Dec 29	Disk brakes control big cables .....	Oct 14
		Conveyors coast cooperatively .....	Nov 10
		Heavy-duty clutch couples ICE to car shaker .....	Nov 12

### Chain drives

Largest radio telescope uses chain drive .....	Jan 8
Chain drive for marking machine is more dependable .....	Mar 14
Small drives, chain drives .....	Mar 34
Small drives power mechanical hand .....	Mar 35
Chain drive pulls broach through rotor .....	Apr 8
Self-lube chain opens new uses for chain drives .....	Apr 41
Chains carry power to widely separated shafts .....	May 34
Twelve strands drive lineshaft .....	Jun 12
Chain takes slip out of bar Skinner .....	Jun 30
Clutch sprockets vary speed of loader drives .....	Jul 8
Walking beam powers marine cutter .....	Aug 11
ASA 160, 2-strand .....	Sep 14
Sand-loaded surfaces .....	Sep 14
Electric clutches integrate roller chain drives .....	Sep 48
Roadbed drive takes newsprint over hump .....	Oct 12
Drives that make hats .....	Dec 6
Integral powerbox protects crane drive .....	Dec 12

### Couplings, joints, and flexible shafts

Coupling for waste disposal .....	Jan 8
Universal joint, 1850 model .....	Feb 6
Rock-O-Plane uses fluid drive .....	Feb 11
Four wheels steer truck through water .....	Feb 29
Flexible shaft drives truck refrigerator .....	Feb 36
A new small drive .....	Mar 14
Small drives, couplings and universal joints .....	Mar 32
Small drives power mechanical hand .....	Mar 35
14-inch coupling has high torque .....	Apr 12
Eddy-current drives .....	Apr 29
Smooth drive extrudes vinyl .....	Apr 32
Flexible couplings separate the units for easy access and assembly .....	May 36
Tilt-table drive takes new coupling .....	Jun 31
Flexible shaft .....	Aug 12
Gear drive isolates vibration .....	Sep 52
Drives that keep them working down on the farm .....	Dec 29
Ball-and-socket universal joint .....	Dec 53

### Clutches and brakes

Clutch brake wins prize for design .....	Jan 14
Textile machine uses dry fluid drive .....	Jan 19
Rock-O-Plane uses fluid drive .....	Feb 11
Four wheels steer truck through water .....	Feb 29
How to test tractor clutches .....	Feb 32
Eddy-current brakes simplify belt tests .....	Feb 34
Clutches select earthmover's speed .....	Feb 39
Backstop adds safety to grain elevator .....	Mar 10
A new small drive .....	Mar 14
Small drives, brakes and clutches .....	Mar 31
Small gears drive eyes and ears of Mariner II .....	Mar 39
Tiny brake controls huge milling machine .....	Mar 40
Putting a power shift on an instrument drive .....	Mar 46
How to get straight-line motion with an electric motor .....	Apr 36
Overrunning clutch beats ratchet .....	Apr 44
Clutches improve winding machine .....	May 8
Brake absorbs momentum for emergency stops .....	May 30
How to control a machine by using air-operated clutches and brakes .....	Jun 36
Clutch sprockets vary speed of loader drives .....	Jul 8
Mechanical drive beats hydraulic .....	Jul 14
Brake wheel coupling .....	Aug 13
Machine drives used in binding books .....	Aug 20
Muscle for a mountain mover .....	Aug 30

### Gear drives and intermittent drives

Index table stacks newspapers .....	Jan 10
Speed reducer positions engines .....	Jan 16
Wormgear drives 48-inch auger .....	Jan 20
Angle drive for 20-ton thrust .....	Jan 20
Special design 24-degree angle drive .....	Feb 12
Roll-contact spinner .....	Feb 13
Four wheels steer truck through water .....	Feb 29
Attack cargo-transport has unique gear .....	Mar 15
Flying scooter uses right-angle reducer .....	Mar 19
Small drives, gears .....	Mar 31
Small drives power mechanical hand .....	Mar 35
Small gears drive eyes and ears of Mariner II .....	Mar 38
Belt silences gear drive for meter .....	Mar 42
Little gearmotor drives bottle inspector .....	Mar 45
Putting a power shift on an instrument drive .....	Mar 46
Pinion stand .....	Apr 10
How to get straight-line motion with an electric motor .....	Apr 36
Overrunning clutch beats ratchet .....	Apr 44
Speed reducers help make glass .....	May 10
Two double-reduction gearsets drive crane .....	May 13
280-hp tractor-scraper has forged hubs .....	May 14

## ***Subject index of 1963 articles***

Issue	Page	Issue	Page
Reducer provides smooth control for huge instrument .....	May 14	Braking of high-inertia loads .....	Nov 12
Gears do many jobs .....	May 38	Cutterhead drive for a dredge .....	Nov 16
Pinion stand changed to 23-deg tooth form .....	Jun 30	Drives that make hats .....	Dec 6
Roller gear drives .....	Jun 33	Perhaps a lady could drive this dozer .....	Dec 8
Wormdrive puts you on the green .....	Jun 38	Integral powerbox protects crane drive .....	Dec 12
New gear cuts costs 60 percent .....	Jun 41	Variable frequency controls speeds .....	Dec 42
Test stand simulates flight of jet trainer .....	Jun 42		
Reducer dumps melt .....	Jul 13		
How to quiet high-speed gears .....	Jul 13		
Mechanical drive beats hydraulic .....	Jul 14		
Walking beam powers marine cutter .....	Aug 11		
Spur gears filter loads .....	Aug 12		
Machine drives used in binding books .....	Aug 20		
Special drives produce tailored outputs .....	Aug 22		
How to use geartooth pitting data .....	Aug 25		
Muscle for a mountain mover .....	Aug 30		
Stock parts cut cost of gear train .....	Aug 34		
Giant earthmovers from basic modules grow .....	Sep 8		
Electric wheel puts power where it's needed .....	Sep 12		
Big truck design—a three-horn dilemma .....	Sep 39		
Four-speed drive runs 57-ton locomotive .....	Sep 45		
Crawler tractor has simple power train .....	Sep 50		
Gear drive isolates vibration .....	Sep 52		
Mixer drives challenge the designer .....	Oct 29		
Braking of high-inertia loads .....	Nov 12		
Gears turn oxygen furnace .....	Nov 15		
MoS <sub>2</sub> in nylon improves wear in small gears .....	Nov 16		
Gears for mobile equipment .....	Nov 16		
How to find efficiency of planetary gears .....	Nov 40		
Drives that make hats .....	Dec 6		
Integral powerbox protects crane drive .....	Dec 12		
The battle for troublefree appliance drives .....	Dec 34		
<b>Packaged transmissions, torque converters, complete transmissions, and variable drives</b>			
Variable-speed drive powers gun drill .....	Feb 8	Ball screw makes efficient jack .....	Feb 6
Controlled speed prevents wire breakage .....	Feb 8	Ball screw replaces hydraulic cylinder .....	Feb 10
Variable speed for cable-wrapping machine .....	Feb 9	Automatic barometer uses ball screw .....	Mar 12
Roll-contact spinner .....	Feb 13	50-hp lathe has tape control, ball-screw feed .....	May 8
How to select a complete drive .....	Feb 25	Ball screw controls electric furnace .....	May 15
Eddy-current brakes simplify belt tests .....	Feb 34	Ball screw actuates wing flap .....	Jun 8
Clutches select earthmover's speed .....	Feb 39		
Spring drive for spacecraft arms .....	Mar 10		
Small drives, miniature drives .....	Mar 33		
Small drives power mechanical hand .....	Mar 35		
Integrator has ball-and-disk drive .....	Mar 49		
Small bearings help solve trig problems .....	Mar 51		
Eddy-current drives .....	Apr 29		
Smooth drive extrudes vinyl .....	Apr 32		
Ball drive replaces variable-speed pulley .....	Apr 34		
How to get straight-line motion with an electric motor .....	Apr 36		
Roller varies transmission ratio .....	Jun 8		
Variable speed drive moves hot tubes .....	Jun 32		
Old car has first variable drive .....	Jul 16		
Machine drives used in binding books .....	Aug 20		
Giant earthmovers from basic modules grow .....	Sep 8		
Two-way clutch operates fingertip shift of a scraper .....	Sep 36		
Loader has variable drive .....	Sep 42		
Four-speed drive runs 57-ton locomotive .....	Sep 45		
Ball pistons drive hydrostatic wheel .....	Oct 10		
Ball drive combines inputs .....	Oct 12		
<b>Prime movers and controls</b>			
Motor control for cranes .....	Jan 10		
Reaction engine for Polish boats .....	Jan 16		
Baby computer turns time into money .....	Jan 20		
New kind of engine for space car .....	Feb 6		
Little motor stores energy in flywheel for missile guidance .....	Feb 9		
How to select a complete drive .....	Feb 25		
Four wheels steer truck through water .....	Feb 29		
Taunus has V-4 engine .....	Mar 10		
Small drives, motors .....	Mar 32		
Small drives power mechanical hand .....	Mar 35		
Small gears drive eyes and ears of Mariner II .....	Mar 39		
Little gearmotor drives bottle inspector .....	Mar 45		
Eddy-current drives .....	Apr 29		
Smooth drive extrudes vinyl .....	Apr 32		
How to get straight-line motion with an electric motor .....	Apr 36		
5-hp motor powers all motions .....	May 30		
Gearmotors simplify power drives .....	May 32		
Test stand simulates flight of jet trainer .....	Jun 42		
Gravity cutoff protects drive .....	Jul 22		
Turbines give dragster swift kick .....	Aug 8		
Brushless motors steer satellite .....	Aug 10		
Turbojets test arresting gear .....	Aug 32		
Electric wheel puts power where it's needed .....	Sep 12		
Big truck design—a three-horn dilemma .....	Sep 39		
No more burnouts for electric motors .....	Oct 42		
Gas turbine drive pipeline pumps .....	Nov 12		
Heavy-duty clutch couples ICE to car shaker .....	Nov 12		
How industry uses the internal-combustion engine .....	Nov 29		
Bogie-mounted motors drive World's Fair monorail .....	Dec 6		
Perhaps a lady could drive this dozer .....	Dec 8		
The higher they fly, the harder they roll .....	Dec 11		
Variable frequency controls speed .....	Dec 42		
Control fingers feel tension .....	Dec 44		
<b>Screw drives</b>			
Ball screw makes efficient jack .....	Feb 6		
Ball screw replaces hydraulic cylinder .....	Feb 10		
Automatic barometer uses ball screw .....	Mar 12		
50-hp lathe has tape control, ball-screw feed .....	May 8		
Ball screw controls electric furnace .....	May 15		
Ball screw actuates wing flap .....	Jun 8		
<b>Refresher course in basics of design</b>			
Statics .....	Oct 36		
Work, energy, and mechanical advantage .....	Nov 37		
Relative velocity .....	Dec 38
